POWER CUT?
CALL 105

THINK BEFORE YOU DIG

If you're working in the garden, please be aware of underground electricity cables as contact could be fatal.

In an emergency, call 105

Dear Customer,

Our priority is your safety

Gardening projects that involve deep digging, excavation or driving fence posts, run the risk of striking an underground cable which can result in serious or fatal injury.

Before you start a job, think about the work you'll be doing and contact Scottish and Southern Electricity Networks for a free check of cable locations.
